

To whom it may concern

Sempach-Station, 11 July 2013

Confirmation

Purbond herewith officially declares that all PURBOND adhesives are absolutely free from added Formaldehyde and Urea-Formaldehyde. Formaldehyde and Urea-Formaldehyde is neither a component in the formulation of our polyurethane adhesives, nor is it formed or liberated during curing, during use of the bonded construction components or during disposal at the end of their life cycle (incineration or rotting).

Best Regards,
PURBOND AG
