

## Sustainable Forestry Policy

Structurlam Mass Timber Corporation  
Structurlam Mass Timber U.S., Inc.

Structurlam is committed to the goals of sustainable development and promoting responsible resource management and use. To achieve these goals, and where applicable, Structurlam implements and achieves conformance with the applicable Sustainable Forestry Initiative® (SFI®) Chain of Custody and Certified Sourcing requirements, as well as associated Logo and Label Use Rules.

Structurlam is committed to sourcing raw material from sustainably managed, certified chain of custody and non-controversial sources. Structurlam employs environmentally, socially and economically sustainable practices to meet the needs of the present without compromising the ability of future generations to meet their needs. This is accomplished by practicing and promoting a resource and conservation stewardship ethic.

Structurlam's Sustainable Forestry Policy is to promote the principles of sustainable forestry and development. Structurlam has set an overall goal to increase the amount of certified and responsibly sourced wood fiber content in its products.

In Canada, Structurlam is committed to comply with federal, provincial and local laws and regulations, including social laws.

In the U.S., Structurlam is committed to comply with applicable federal, state and local laws and regulations, including social laws.

To help implement and achieve the Sustainable Forestry Policy, Structurlam has developed and adopted appropriate programs, plans and procedures to guide its fiber procurement and certification activities. Structurlam is also committed to annually review the effectiveness of its sustainability policy and chain of custody program as part of management review to continually improve the management system and environmental performance.

Hardy Wentzel,  
CEO, Structurlam Mass Timber Corporation  
President, Structurlam Mass Timber U.S., Inc.
