

Job description

Are you ready to be part of changing the way we build in North America? How would you like to live in British Columbia's South Okanagan while working for one of North America's most innovative manufacturing companies?

Structurlam is at the forefront of the global resurgence in the structural use of wood and changing the way we build. This is your chance to play a key role in the movement to more sustainable construction by using the world's only renewable building material.

Job Description

Our business is looking for a talented and qualified logistics manager to join our team. In this position, you will be responsible for all supply chain management duties including selecting carriers, researching shipping methods, assessing budgets, and organizing storage.

The successful candidate must demonstrate strong attention to detail in order to oversee daily operations and logistics employees. In addition to having excellent organizational skills, you should also possess in-depth knowledge of logistics and inventory systems[MF1] .

Responsibilities:

- Select carriers and negotiate contracts and rates.
- Plan and monitor inbound and outgoing deliveries.
- Supervise logistics, warehouse, transportation, customer services, and its related teams of associates.
- Organize warehouse, label goods, plot routes, and process shipments.[MF2]
- Respond to any issues or complaints.
- Research ideal shipping techniques, routing, and carriers.
- Work with other departments to incorporate logistics with company procedures and operations.
- Evaluate budgets and expenditures.
- Update and evaluate metrics to assess performance and implement enhancements.
- Ensure all operations adhere to laws, guidelines, and ISO requirements.

Requirements:

- Bachelor's degree in business administration, logistics, supply chain, or relevant field.
- A minimum of 2 years' experience in a similar role.
- In-depth knowledge of the consumer goods industry.
- Solid understanding of logistics and inventory management[MF3] software, EPICOR would be an asset.

- Outstanding analytical, problem solving and organizational abilities.
- Exceptional verbal and written communication skills.

What you bring:

- Expertise in logistics, supply chain and transportation
- 3-5 years experience in manufacturing logistics/ transportation management
- Master contract management and negotiation skills
- Excellent interpersonal and communication skills
- Demonstrated leadership, analysis & problem-solving skills.
- Excellent, planning, management and analysis using technology, ERP and other related systems and software
- Demonstrated time management, organization skills and excellent people skills.
- Manage multiple activities/deadlines/reports
- Demonstrated ability to be assertive and respectful while ensuring deadlines and deliveries are met
- Ability to thrive and work effectively in a fast paced and sometimes hectic work environment

What we offer:

- An unwavering commitment to your personal safety
- Competitive pay and benefits
- Training and development to ensure you work successfully and safely
- The opportunity to work with the best and brightest in the industry
- Diverse opportunities to grow within the organization
- An open, innovative culture along with a positive, dynamic work environment

If you believe you have the required qualifications, experience and are interested in the above position, please submit your resume and cover letter!

You will have the chance to live and play where you work. If you enjoy fresh air and outdoor activities, this is one of the best places to live in North America.

We thank all candidates for their interest however, only those selected for an interview will be contacted.
